

"First Light" landing page — Golden Ridge Partners

What was delivered

A new standalone one-page landing site for Golden Ridge Partners (Juliana) — separate from the main `goldenrp.land` Next.js site, in its own repo per the client-separation rule. Plain HTML/CSS/JS, no build step, PORT-aware server with HTTP Range support, Docker pack (node:20-alpine, healthcheck).

Concept — "First Light"

A 30-second scroll-scrubbed sunrise film runs fixed behind the entire page: pre-dawn Florida pine flatwoods with ground mist → first golden rays breaking through the pines → the sun cresting the treeline and flooding a misty meadow, landing into the sun-gold CTA section ("Your land is waiting"). Sections float transparent over the film. Identity is fully distinct from the Spotlight, UnleeshAI, and Ground Truth pages: pine/sand/sun-gold palette, Bricolage Grotesque display type, a rising-sun preloader (no % counter, no beam), and drifting fireflies in the hero.

Copy compliance — every claim sourced

Claim on the page	Source in the live site code
0% interest, no banks, no credit checks	Homepage metadata + how-it-works page
One flat \$249 document fee, no hidden/monthly/prepayment fees	Guarantee page FAQ + calculator (<code>ourDoc = 249</code>)
Old-way costs: ~3% realtor, ~\$800 closing, ~\$495 underwriting, ~\$500 doc	Guarantee page calculator constants
Love It or Swap It: 100 days, swap equal-or-greater, principal transfers 100%, Warranty Deed	Guarantee page FAQ answers
4 steps (browse → reserve → sign digitally → ownership journey)	How-it-works page steps array
Putnam "last frontier of affordable sunshine"	Homepage "Wild Florida" section
Juliana's promise quote	Guarantee page hero ("My promise is simple...")

Verification (measured, not assumed)

Check	Result
Whole-page scrub, real Chrome (H.264)	0/25/50/75/100% scroll → 0.00/7.54/15.08/22.63/30.17 s
Horizontal overflow	scrollWidth 1440 = viewport, none
Console errors	0
Screenshots	Hero (fireflies over pre-dawn pines), guarantee certificate, gold finale — all readable, AA-safe
Encodes	All-intra 12 fps + denoise: 16.7 MB desktop / 4.5 MB mobile / 150 KB poster (preloaded LCP)
Fallbacks	Reduced-motion & data-saver: poster only, no video download, no animations; no-JS fully readable

Assets

Film: 3 × 10 s Higgsfield kling3_0_turbo segments frame-chained via last-frame → start_image, concatenated, single ByteDance 2K aigc upscale. ~45–60 credits total. All prompts + job IDs in docs/asset-log.md for regeneration.

Outstanding — needs Kira / Juliana

Item	Detail
Highlands blurb [CONFIRM]	The Highlands County card copy ("Lake country in the heart of the state... hand-picked for buildability and access") is written to be safe but is not verbatim from the site — confirm or supply preferred wording.
Hosting	Docker pack ready (Render/Railway/Fly/Coolify auto-detect). No deploy target chosen. Could live at a subdomain (e.g. land.goldenrp.land) or replace a campaign URL.
Fonts	Google Fonts CDN (Bricolage Grotesque, Karla, Space Mono). Self-host before production if desired.
CTA destination	All CTAs point at https://goldenrp.land/inventory. Confirm that is the wanted funnel entry.
